PROFILE

Passionate and detail-oriented Front-End Developer.
Skilled in creating dynamic and responsive web applications with a focus on user experience and clean code. I use Angular and React frameworks combined with TypeScript to build scalable and maintainable front-end solutions. Experience working with Ionic for cross-platform mobile application development. Knowledge of SCSS, Bootstrap and Stitches for efficient style and layout design. Familiarity with state management using NgRx, Redux and Jotai.
I am looking for an innovative and dynamic company that will give me the opportunity to continue to grow personally and professionally.
